

# Food waste disposer

**YES**

- Coffee grounds
- Pasta, rice
- Leftover bread, eggshell
- Leftover vegetables, fruit
- Leftover meat, fish, shellfish

**NO**

- Nappies, sanitary towels
- Ice cream sticks, chopsticks, toothpicks
- Soil, pot plants, cut flowers
- Coffee filters, tea bags
- Bottle tops
- Plastic e.g., bags and gloves
- Napkins, kitchen paper
- Snuff ("snus"), cigarettes, ash
- Soup, drinks, sauce

## Tips and advice

The food waste is grounded in a disposer. The food waste disposer will break if the wrong material is thrown into it, (e.g. plastic and cutlery). Biological treatment converts food waste to biogas, which can be used to drive cars and buses, among other things.
